

## **It All Works Out**

It all works out you see  
It all works out  
It all works out you see  
The unexpected so surprisingly

When I was in school a lot like you,  
I didn't quite fit in,  
I couldn't play sports or see the board  
But how I loved to sing.

I loved to write stories, read and paint  
Though people often said to me  
You go so close, how can you see?  
It was a mystery to them and me

Well music's taken me all round the world  
I make kind friends along the way.  
Some fit in and some stand out,  
Either way, it's all ok.

Because you have to do what you can do  
Try to listen to your heart  
Not care too much what people think  
that's not always the easy part. (but if you do )

It all works out you see  
It all works out  
It all works out you see  
With kindness and a little creativity

Even if you have a disability  
A disability is not your identity.

Or a pandemic turns the world topsy turvy,  
It takes kindness and a little creativity  
It all works out!
