

We all had a favourite toy/s. My favourites were a rabbit knitted by my mum, my Strawberry Shortcake doll and my post office set. Can you write about your favourite toys that you have treasured since you were little? Write what they were, where you got them, why you loved them and perhaps draw them?

This was my favourite movie when I was young. I loved the colours as it was the first movie I saw on our new colour T.V. I loved how the 4 characters were all looking for something different from the wizard and how they stuck together no matter what. I was a little afraid of the witch though!

Do you have a favourite movie/s. Maybe it's a movie from when you were younger? What happened in the movie and why do/did you like it so much? Maybe you could watch it again?
