

## My Favourite Song at the Moment

For this lesson I want you to read through the list of headings below. Then find a quiet place to listen to your favourite song but I want you to listen actively (That is fully concentrating on the music and what is being said rather than just passively 'hearing' it). Listen to the song at least twice but while you're listening try to think of answers to the headings below such as favourite lyrics, the reason you love this song, how it makes you feel etc. Enjoy! (It is probably best to do this written response in your copy)
